### SAFETY DATA SHEET PY SMOOTH BLUE BS20E51 PIGMENT

According to the REACH etc. (Amendment etc.) (EU Exit) Regulations 2020 No. 1577, as amended.

| SECTION 1: Identification of the substance/mixture and of the company/undertaking  |   |  |
|--|---|--|
| 1.1. Product identifier  |   |  |
| Product name   | PY SMOOTH BLUE BS20E51 PIGMENT  |  |
| Product number   | WS10104A  |  |
| 1.2. Relevant identified uses of the substance or mixture and uses advised against |   |  |
| Identified uses  | COLOURING OF POLYESTER RESINS & GELCOATS.   |  |
| 1.3. Details of the supplier of the safety data sheet                              |   |  |
| Supplier   | WEST AND SENIOR LIMITED.<br>MILLTOWN STREET<br>RADCLIFFE<br>MANCHESTER. M26 1WE.<br>TEL + 44 01617247131<br>FAX + 44 01617249519<br>info@westsenior.co.uk |  |
| 1.4. Emergency telephone number  |   |  |
| Emergency telephone  | 24 HOUR EMERGENCY TELEPHONE NUMBER : + 44 (0) 7930 595916   |  |
| SECTION 2: Hazards identification  |   |  |
| 2.1. Classification of the subs  | tance or mixture  |  |
| Classification (SI 2019 No. 72   |   |  |
| Physical hazards   | Not Classified  |  |
| Health hazards   | Not Classified  |  |
| Environmental hazards  | Not Classified  |  |
| Environmental<br>2.2. Label elements   | The product is not expected to be hazardous to the environment.   |  |
| Hazard statements  | NC Not Classified   |  |
| Supplemental label information   | EUH211 Warning! Hazardous respirable droplets may be formed when sprayed. Do not breathe spray or mist.   |  |
| 2.3. Other hazards   |   |  |

This product does not contain any substances classified as PBT or vPvB.

#### SECTION 3: Composition/information on ingredients

#### 3.2. Mixtures

| TITANIUM DIOXIDE                   | 30-60%  |
|------------------------------------|---|
| CAS number: 13463-67-7             | EC number: 236-675-5  |
| Classification<br>Not Classified   |   |
| BARIUM SULPHATE                    | 10-30%  |
| CAS number: 7727-43-7              | EC number: 231-784-4  |
| Classification<br>Not Classified   |   |
| The full text for all hazard state | ements is displayed in Section 16.  |
| Composition comments               | This mixture contains ≥ 1% Titanium Dioxide (CAS 13463-67-7) The Annex VI classification of<br>Titanium Dioxide does not apply to this mixture according to its Note 10. No other disclosure<br>required under the latest EC Directives |
| SECTION 4: First aid measure       | 95  |
| 4.1. Description of first aid me   | asures  |
| General information                | No specific recommendations. If in doubt, get medical attention promptly.   |
| Inhalation                         | Move affected person to fresh air at once. Get medical attention if any discomfort continues.   |
| Ingestion                          | Never give anything by mouth to an unconscious person. Do not induce vomiting. Rinse mouth thoroughly with water. Give plenty of water to drink. Get medical attention if any discomfort continues.                                     |
| Skin contact                       | Remove affected person from source of contamination. Get medical attention if irritation persists after washing.  |
| Eye contact                        | Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.   |
| 4.2. Most important symptoms       | and effects, both acute and delayed   |
| General information                | Get medical attention if any discomfort continues.  |
| Inhalation                         | No specific symptoms known.   |
| Ingestion                          | No specific symptoms known.   |
| Skin contact                       | No specific symptoms known.   |
| Eye contact                        | No specific symptoms known.   |
| 4.3. Indication of any immedia     | te medical attention and special treatment needed   |
| Notes for the doctor               | No specific recommendations.  |
| SECTION 5: Firefighting meas       | sures   |
| 5.1. Extinguishing media           |   |
| Suitable extinguishing media       | The product is not flammable. Use fire-extinguishing media suitable for the surrounding fire.   |
| Unsuitable extinguishing<br>media  | Do not use water jet as an extinguisher, as this will spread the fire.  |
| 5.2. Special hazards arising fr    | om the substance or mixture   |

| Specific hazards   | No unusual fire or explosion hazards noted.   |  |
|--|---|--|
| Hazardous combustion<br>products   | Heating may generate flammable vapours. Vapours may form explosive mixtures with air.   |  |
| 5.3. Advice for firefighters   |   |  |
| Protective actions during firefighting   | No specific firefighting precautions known.   |  |
| Special protective equipment<br>for firefighters   | Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.   |  |
| SECTION 6: Accidental release  | e measures  |  |
| 6.1. Personal precautions, pro   | tective equipment and emergency procedures  |  |
| Personal precautions   | Avoid heat, flames and other sources of ignition. Provide adequate ventilation.   |  |
| 6.2. Environmental precaution  | S   |  |
| Environmental precautions  | Avoid the spillage or runoff entering drains, sewers or watercourses.   |  |
| 6.3. Methods and material for  | containment and cleaning up   |  |
| Methods for cleaning up  | Stop leak if possible without risk. Absorb in vermiculite, dry sand or earth and place into containers. Avoid the spillage or runoff entering drains, sewers or watercourses.   |  |
| 6.4. Reference to other section  | <u>ns</u>   |  |
| Reference to other sections  | For waste disposal, see section 13.   |  |
| SECTION 7: Handling and sto  | rage  |  |
|  |   |  |
| 7.1. Precautions for safe hand   | ling  |  |
| 7.1. Precautions for safe hand<br>Usage precautions  | <b>ling</b><br>Wear suitable protective equipment for prolonged exposure and/or high concentrations of<br>vapours, spray or mist. Take precautionary measures against static discharges. Contaminated<br>rags and cloths must be put in fireproof containers for disposal.  |  |

| 8.2. Exposure controls              |  |  |
| Protective equipment                |  |  |
| Appropriate engineering<br>controls | No specific ventilation requirements.  |  |
| Eye/face protection                 | Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. The following protection should be worn: Chemical splash goggles or face shield.  |  |
| Hand protection                     | Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible.  |  |
| Other skin and body protection      | Wear appropriate clothing to prevent any possibility of skin contact.  |  |
| Hygiene measures                    | Do not smoke in work area. Wash at the end of each work shift and before eating, smoking<br>and using the toilet. Wash promptly if skin becomes contaminated. Promptly remove any<br>clothing that becomes contaminated. Use appropriate skin cream to prevent drying of skin.   |  |

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

| Appearance                                      | Viscous liquid. or Coloured paste.                                  |
|---|---|
| Colour  | Various colours.  |
| Odour   | Aromatic.   |
| Odour threshold                                 | No information available.   |
| рН  | No information available.   |
| Melting point                                   | No information available.   |
| Initial boiling point and range                 | No information available.   |
| Flash point                                     | >65°C   |
| Evaporation rate                                | No information available.   |
| Evaporation factor                              | No information available.   |
| Flammability (solid, gas)                       | No information available.   |
| Upper/lower flammability or<br>explosive limits | No information available.   |
| Other flammability                              | No information available.   |
| Vapour pressure                                 | No information available.   |
| Vapour density                                  | No information available.   |
| Relative density                                | No information available.   |
| Bulk density                                    | No information available.   |
| Solubility(ies)                                 | Organic solvents. Insoluble in water.                               |
| Partition coefficient                           | Not available.  |
| Auto-ignition temperature                       | No information available.   |
| Decomposition Temperature                       | No information available.   |
| Viscosity                                       | No information available.   |
| Explosive properties                            | No information available.   |
| Explosive under the influence of a flame        | No  |
| Oxidising properties                            | Not available.  |
| Comments  | No information available.   |
| 9.2. Other information                          |   |
| Other information                               | No information required.  |
| SECTION 10: Stability and rea                   | activity  |
| 10.1. Reactivity                                |   |
| Reactivity                                      | There are no known reactivity hazards associated with this product. |
| 10.2. Chemical stability                        |   |
| Stability                                       | Stable at normal ambient temperatures.                              |
| 10.3. Possibility of hazardous                  | reactions   |

| Possibility of hazardous reactions                     | No potentially hazardous reactions known.   |  |
|--|---|--|
| 10.4. Conditions to avoid                              |   |  |
| Conditions to avoid                                    | Avoid excessive heat for prolonged periods of time. Avoid heat, flames and other sources of ignition.   |  |
| 10.5. Incompatible materials                           |   |  |
| Materials to avoid                                     | No information available.   |  |
| 10.6. Hazardous decomposit                             | ion products  |  |
| Hazardous decomposition products                       | Thermal decomposition may lead to formation of a multiplicity of compounds some of which may be hazardous. With incomplete combustion smoke and hazardous fumes and gases , including carbon monoxide, may be formed.   |  |
| SECTION 11: Toxicological in                           | nformation  |  |
| 11.1. Information on toxicolog                         | gical effects   |  |
| Toxicological effects                                  | Not classified.   |  |
| Acute toxicity - oral<br>Notes (oral LD∞)              | Not relevant.   |  |
| Acute toxicity - dermal<br>Notes (dermal LD₅₀)         | Not relevant.   |  |
| Acute toxicity - inhalation<br>Notes (inhalation LC₅₀) | Not relevant.   |  |
| Acute and chronic health hazards                       | No specific health hazards known.   |  |

| Notes (oral LD <sub>50</sub>                           |   |  |
| Germ cell muta   |   |  |
| Summary  | In vivo mutagenicity in rats occurs by mechanisms secondary<br>to a threshold effect and is a consequence of "lung overload," which leads to<br>chronic inflammation and the release of genotoxic oxygen species. This<br>mechanism is considered to be a secondary genotoxic effect and, thus,<br>carbon black itself would not be considered to be mutagenic.   |  |
| Genotoxicity - ir                                      | <b>vitro</b> Carbon black is not suitable to be tested directly in bacterial (Ames test) and other in vitro systems because of its insolubility. However, when organic solvent extracts of carbon black have been tested, results showed no mutagenic effects. Organic solvent extracts of carbon black can contain traces of polycyclic aromatic hydrocarbons (PAHs). A study to examine the bioavailability of these PAHs showed that they are very tightly bound to carbon black and are not bioavailable (Borm 2005). |  |

carbon black and are not bioavailable (Borm, 2005).

| Genotoxicity - in                                | vivo      | In an experimental investigation, mutational changes in the hprt ene<br>were reported in alveolar epithelial cells in the rat following inhalation<br>exposure to carbon black (Driscoll, 1997). This observation is considered to<br>be rat-specific and a consequence of "lung overload," which leads to chronic<br>inflammation and release of reactive oxygen species. This is considered to be<br>a secondary genotoxic effect and, thus, carbon black itself would not be<br>considered to be mutagenic. |
